Watches from **RETIME**®

A watch is something very special and brings infinite design possibilities. This workbook explains the special features of a watch for use as a premium advertising medium and answers both technical and design questions.

They are useful, generally rather compact and available in so many different designs so there is a suitable model for every taste and style. We are talking about the wristwatch. Most people own at least one. But there are also those who cannot get enough of these useful timepieces. They succumb to a true collector's passion.

TIMELESS, STYLISH, USEFUL. WRISTWATCHES AS PREMIUM ADVERTISING MATERIAL.

Wristwatches unite decorative and practical elements. This is one of the reasons why they are the perfect advertising items, since they offer the opportunity to position your company logo in a prominent spot, directly on the wrist of the wearer, regardless whether it is a trendy model for children and teenagers, a stylish model for today's urban female or a high-quality chronograph for men, who enjoy active leisure time.

Wristwatches are available for every target group and for every budget – whether casual, elegant or playful, whether made of colorful plastic or heavy stainless steel. There are also no limits when it comes to finishing. Even extravagant materials are possible. A printed dial, a fine engraving or a special strap turns every wristwatch into a real gem. An eye-catcher with which you and your customers literally carry your brand in public.

Quick check:
What makes
a wristwatch
an interesting
promotional item?

Sustainability:

A wristwatch is a promotional item that can be used again and again in the long term.

Advertising effect:

With a wristwatch as a promotional item, you can bring your company closer to your target group and raise its profile.

Brand image:

Watches can enhance the image of a brand or a company and increase it significantly.

Customer orientation:

If you surprise your customers with a watch, you are showing high appreciation.

Functionality:

The watch just works around the clock. The prolonged use of the watch creates positive customer acceptance.

Quality:

With a high quality watch, the customer may apply this perception to your service or products.

Why choose watches from **RETIME**®:

FACTORY IN ASIA

Our relationship with our partners in Asia has existed for decades and since then they have become a permanent and extremely important part of our business. Our factory in Asia works extremely accurately, flexibly, innovatively and always finds the right processes to make your product unique. Precise handwork and love for detail characterizes our factory. In addition, the manufactory has a wide range of high-quality products, highly qualified workforce and fast delivery times. This gives us the possibility to bring your ideas to life flexibly and efficiently.

To make the whole process easy for you, we take care – in cooperation with our Asian suppliers – of the import process of your watches including customs clearance and all necessary taxes like WEEE, battery law and packaging taxes.

DESIGN COMPETENCIES

In cooperation with our Asian factory, we regularly analyze & review the latest trends in the market to keep our collection up to date and follow the latest trends in style. In our collection we have a full range of watches with more than 60 standard models, starting from the low quantity of 25 pieces. We can design, develop and produce individual and unique models for you starting from 500 pieces.

DESIGN SERVICE

Our design service in Germany will visualize your concept or surprise you with new aspects. We always have a good idea or two for you and we are experts in harmonizing your corporate identity elements with our watches and packagings. Our customers can decide easily since we provide lifelike renderings even for custom models.

AFTER SALES SERVICE

In addition to detailed design and competence consultation regarding your watch, we offer after sales service for you and your customers in our own watch workshop in Cologne. These service competencies include battery replacement and the repair of damaged parts such as glass, hands and strap. This means even after the delivery of your watch from RETIME®, we are still at your side as a reliable partner!

WARRANTY

The watches of our RETIME® brand are made exclusively from high quality materials using the latest manufacturing technologies. Therefore for all watches we offer our customers a 5-year guarantee on the material and workmanship of the cases and movements. Without exception, all RETIME® brand products stand for high quality and a convincing price-performance ratio.

TARGET GROUPS

You might think that a watch does not suit your customer target group?

Let us prove you otherwise and introduce you to a number of possible target groups:

- Automotive industry
- Anniversary gifts
- Employee bonus
- Fairs
- Merchandising
- Promotions
- Fan articles for sports clubs
- Branded watches for retail business
- Museum watches

EXPRESS DELIVERY

We know sometimes deadlines are tight. Our most popular models are available with shorter delivery time. Ask us about the exact models and how we can speed up the process.

CUSTOMIZATION

A watch is not only a time indicator for us, but also a product which we can turn into a unique piece of jewelry through many individualization possibilities.

Your logo can be placed in many different places. Typically it is in the upper center position of the dial, but your logo can also be placed on the back or the side of the case, on the crown, on the strap or on the buckle.

Kid's watches as brand ambassadors

RETIME® Kid's watch concept

The packaging

- Individual paper sleeve
- Plastic gift box

The learning tool

- Easy to assemble
- Learning tool
- Individual custom design possible

From an early age, we are imprinted on brands. Therefore, we offer you the opportunity to inspire kids at a young age for a brand in a playful way and to promote brand awareness. Your target group cannot read the time yet? No problem. Our set contains a completely personalised kid's watch in high-quality packaging with learning tool. Each watch also comes with a paper watch as a learning tool to teach children how to tell the time. The watch and the packaging can be adapted to the corporate identity of the advertising company.

The watches

- Three variations: 72003, 72002 and 72001
- Sleek and robust alloy case

The dial

- Individualization: Silk-screen print, digital offset print and embossing

72002

Kids watch for boys
 Case: Alloy case in silver
 Diameter: 33 mm
 Glass: Mineral glass
 Movement: 3-hands movement (PC21 Time Movement by Seiko)
 Water resistance: 3 ATM

page

Sustainability in watches

A watch stands for a timeless, useful and stylish timepiece, which can score in the category of sustainability. A watch as a promotional product can be used long term and permanently. In addition to the long use and service life of a watch, it also scores in terms of sustainability with regard to the use of high-quality materials.

Overall, a watch is a sustainable and resource-saving product and can be made even more sustainable by adding further components.

WP21

WP17

WP18

Budget

UNDER 25€

Affordable watches for a wide audience, with your logo, company colors and standard packaging. Ideal for advertising campaigns and as event gifts.

25-50€

With a wider range of customization options, this price range is suitable for a strong brand presence with watches in the higher price segment.

OVER 50€

Top class watches with infinite possibilities – create exclusive company gifts or anniversary watches that everyone will wear with pride.

CHECKLIST

In the following pages we are showing you a checklist and a few examples to help you design a watch best suited to your ideas. We are always glad to help you find the best solution, but if you feel creative, let us show you how its done! The following tables are the summaries of the options, for more information refer to the appropriate sections of this booklet.

Quantity

25-100

At this quantity we offer dials in offset or silkscreen printing, various strap and packaging options.

100-500

From moving discs to colored hands and straps, 3D-printed dials, automatic movements and custom stainless steel cases, these are all available from higher volumes.

OVER 500

Individually designed metal housings and packaging are no problem at all with this quantity. Here the possibilities for customization are limitless.

Style

BASIC

Our basic watches offer elegant design at low prices. We have a wide range of models – from classic chrome-plated or IP-coated models to the Lolliclock range with its strikingly fresh colors.

DESIGN

High-quality watches such as our Chronograph, Design or Classic series have strong presence in any environment and offer even more individualization possibilities.

SPORT

Are you looking for the sporty touch for active people? Then these models are the right choice for you. If you want to take off from the ground and fly high, you will find the right partner in our Pilot series.

CUSTOM

You have a great idea? Let's make it a reality. Our team will design your custom-made case and the matching straps and packaging.

Target group

LADIES

We have a large selection for ladies with smaller case sizes and fashionable colors.

GENTLEMEN

We have a selection of watches for men in case sizes from 39-46mm.

UNISEX

Many of our models are unisex. We also offer several models in pairs, two sizes for men and women.

Movement

QUARTZ

Our quartz movements offer reliable and solid operation for years without the need for battery replacement. In addition to the classic 2 and 3 hands models, we also offer an individual moving disc.

CHRONO

The next step in quartz movements. We offer various models that can be equipped with these movements to give your watch a classic look.

MECHANICAL

The best and most sustainable option! Ask us about the different automatic movements we offer.

Packaging

STANDARD

Choose the packaging you like best from the selection in our catalog or from our website.

OPTIONAL

All standard packaging from our range can be customized. A simple logo print or full color print is possible on all paper boxes. Hot stamping can be done on metal boxes.

CUSTOM

If you are looking for an individual and unique packaging, we will be happy to present you with further ideas such as real leather packaging and even packaging made of sustainable recycled materials.

EXAMPLE 1

In this first example the customer needed something that represents their construction company, stylish for everyday wear for employees and fits his budget. We selected this model in two sizes with concrete dial and standard packaging.

Selection grid for the watch configuration:

- Price: UNDER 25€ (checked), 25-50€, OVER 50€
- Quantity: 25-100 (checked), 100-500, OVER 500
- Style: BASIC (checked), DESIGN, SPORT, CUSTOM
- Gender: LADIES, GENTLEMEN, UNISEX (checked)
- Movement: QUARTZ (checked), CHRONO, MECHANICAL
- Options: STANDARD (checked), OPTIONAL, CUSTOM

EXAMPLE 2

This automotive company wanted something in the medium price range that can be worn by employees but can also be given as a valuable company gift. The chrono movement and the applied indexes accented with company colors made it a striking design. The metal box with pressed logo was a perfect companion.

CASE

The first step is to find a suitable case. We offer a range of materials with several options:

Polycarbonat: Offers wide variety of colors suitable for lower price range. Pantone color matching possible or choose from our fashion colors.

Stainless with silicone injected: Similar to polycarbonate, but the silicone is used to form the housing around a stainless steel base, molded together with the straps.

Alloy: At medium price range alloy cases offer IP plating options in glossy or matte, suitable for most models.

Stainless steel: High quality material with wider range of IP plating options, polished or brushed very durable, high scratch resistance.

Custom materials: Our stock cases or custom designed cases available in real 18K gold, silver or other high quality material.

A very important step to design your watch is the strap selection. For watches with plastic housing we offer silicone, nylon or perlon straps. Watches with metal housing can be fitted with wide array of straps.

Nylon: We have a variety of stock colors but we also offer Pantone color matching. Nylon straps can be colorful, even your own graphic can be printed on using water transfer.

Perlon: A high tensile material, perfect for sporty and outdoor models. We have a selection of weaved patterns and colors, although custom color matching is also possible.

Alcantara: A soft, suede-like synthetic textile material, a good substitute for leather.

Silicone: These single color molded straps are perfect match for plastic or silicone injected cases.

PU: A less expensive alternative to leather, available in several colors and stitching options.

Leather: As a very versatile material, its available in many patterns, shapes, colors and stitchings. Perfect match for high quality watches.

Stainless steel: Made of non allergic, high quality stainless material, these straps available in mesh or bracelet variation, IP plating is also possible, even in bicolor.

Alternative straps: We offer a wide range of strap materials, such as denim, silk wrapped leather, leather with lacquered color gradients or a combination of metal straps with individual fashion accessories, like charms, pearls or crystals.
